just because i love alpine i would go with them, and someone correct me, but i would see them as being even rivals.

But now I know what is the cause and I dont dare to try with engine off and CD inside.

First time Alpine user not happy.

These TVs are unproven technology and a large investment.

What mode do you guys use to watch dvd movies and what do you have your settings at?

I don't care about Chicago, or Atlanta, or even God knows where in Tennessee.

When good, tighten all the screws on the dish so it wont move from the wind and stuff.

"Sony Gragas" are not a new model!

I've since reset the unit, removed it from the car over night and it still doesn't eject or tilt.

man where do you shop?

Your not going to be able to pick these up at best buy though lol.

Lossless of course means that there is NO loss in encoding, hence, there is absolutely no difference from the original CD, not just "almost" indistinguishable.

The next day, remove the face and place back on.

So next you wait for the upgraded channels to appear on your TV.

At the time I was having problems, I did NOT have the speakers attached and I carelessly left the POWER-IC setting on and I believe that was my particular problem.

The cancel button was removed by DTV,when they got wind of this online trick.

Dave, if you are in doubt, just try it.

only post if you know where i can find one thanks, a award will be given to the person who can tell me where i can find or get it free.

I read somewhere that this dish won't work with my Pansat for Dish.

I'm sure there are numerous knowledgable people here that would be more than happy to help you build a good system on a budget.

OR WOULD IT NEED ANY EXTRA SETTINGS OR WOULD THE CD PLAYER OR BATTERY BE AFFECTED IF I CONNECT THE SUBWOOFER?

How can we get our CDs out?

I believe Sony will sell you one up until then.

Dont wanna put beef on you haha but over here, they are useless.

Sorry just trying to instill some hope to those who may not have thought of the power-ic and don't use it.

this place does NOT program your card.

When good, tighten all the screws on the dish so it wont move from the wind and stuff.

News, sports, business and search.

Don't waste your money on Class T amps.

Turn on the power in the back of the satellite receiver.

That happend to me once, so I know from experience.

so that is why i was thinking of connecting to the car.

Also consider an Apple Airport Express Base Station.

Your not going to be able to pick these up at best buy though lol.

My first one quit opening two weeks after I bought it, and now I'm on my second one.

You are the man with the plan and you are right there with the answer.

I committed four months cable bill to buy what I have and until I can pay my credit card off I don't intend to buy more.

I wish I had saved all of those URLs.

Please note that this cable also has a RCA line level for the lfe input to the sub in addition to the speaker leads.

They will get half the power of the ones back there now because of the change in ohm load.

Did you figure out what the problem was?
